

# **Compression Latches - Flexi-System**

insert driver - adjustable grip - zinc

**CC0810** 

# Material

Body & insert: die cast zinc, chrome plate or black coated finish. Insert fitted with O'ring to provide IP54 rating. Handle: polyamide.

**Not supplied:** CAM nor KEY - order separa-

tely.

### **Technical Notes**

Order cam and key separately. **Cams:** see suitable cam CC0030 and A0233.

Select "without projection" cam type.

Dimensions ch and cl relate to cam. Use

formula to calculate ch (required cam offset), and refer to cam selection chart; ch = h - lh where;

**ch** = required cam off-set/height.

**h** = grip length (distance between inside of latch face and front of cam).

lh = body length of cam latch/lock to be
used (see product table below).

Keys: see CC0010.

#### Tips

Compression locks provide sealing of enclosures to reduce vibration and to

provide noise isolation. Adjustable grip type has an extended stem which can be cut in length to best suit your application.

#### Action:

From unlocked position, first 90° turn moves the cam to the locking position. Turn lock 180° to engage compression, cam moves to final fixing position.

Provides a 7mm compression stroke.

## **Important Notes**

Cam: quarter turn to open or close. Locking function.

Order No.         Finish         Insert driver         d1         h1         Ih         I1         I2 useful thread           CC0810.M0020         Chrome Plated         Square 8         28         4.5         32         64.5         15           CC0810.M0320         Black Coated         Square 8         28         4.5         32         64.5         15           CC0810.M0040         Chrome Plated         Triangle 7         28         4.5         32         64.5         15           CC0810.M0340         Black Coated         Triangle 7         28         4.5         32         64.5         15           CC0810.M0050         Chrome Plated         Triangle 8         28         4.5         32         64.5         15           CC0810.M0350         Black Coated         Triangle 8         28         4.5         32         64.5         15           CC0810.M0080         Chrome Plated         Slot (2x4)         28         4.5         32         64.5         15           CC0810.M0085         Chrome Plated         Hexagon 8         28         4.5         32         64.5         15           CC0810.M0085         Chrome Plated         Hexagon 8         28         4.5 <td< th=""><th></th><th></th><th></th><th></th><th></th><th></th><th></th><th></th></td<>
