## **Single Point Cams - Flexi-System**

for cam latches and locks - stainless steel - 8 x 8 Sq.

**CC0022** 

### Material

Stainless steel, AISI 304.

### **Technical Notes**

Use formula to calculate ch (required cam off-set), and select from product table below;

ch = h - lh where;

ch = required cam off-set/height.

**h** = grip length (distance between inside of latch face and front of cam).

lh = body length of cam latch/lock to be
used (see individual latch/lock product
table).

Refer to installation drawing below.

### **Important Notes**

Suitable for Flexi-System latches. "With projection" type ensures correct location and prevents cam rotating over 45°. See cam selection chart for specific latch/lock suitability.
